Long-Term Health Care Savings

- Set global target for total federal health expenditures after 2020 (Medicaid, CHIP, exchange subsidies, employer health exclusion), and review costs every 2 years. Keep growth to GDP +1%
- If costs outpace targets on average of previous 5 years the proposal will require the President to submit and Congress to consider reforms to lower spending, such as:
 1. Increase premiums or further increase cost sharing
 2. Overhaul the fee-for-service system
 3. Develop a premium support system for Medicare
 4. Add a robust public option and/or all-payer system in the exchange
 5. Further expand authority of IPAB
